

Rtn. Rtr. Arun Teja Godavarthi

President, RY 2026 - 2027, Rotaract South Asia MDIO

District Rotaract Chair, RY 2025 - 2026, RI District 3191

Secretary - Reporting & Initiatives, RY 2024 - 2025, Rotaract South Asia MDIO

District Rotaract Representative, RY 2023 - 2025, RI District 3191

Rtn. Rtr. Arun Teja Godavarthi is a Rotarian, Rotaractor, technology leader, and community builder whose work has consistently focused on developing people, strengthening institutions, and creating opportunities for others to lead.

His Rotaract journey began in RY 2015 - 2016 as a Charter Member and International Service Director of the Rotaract Club of CMRIT. Over the years, he served as Club Secretary and President during Rotaract's Golden Jubilee Year before taking on several district leadership responsibilities, including District Committee Member, District Web Services Director, District Joint Secretary, District Rotaract Secretary for Operations & Training, and District Rotaract Representative.

Arun had the distinction of serving as the first District Rotaract Representative of RI District 3191 and as the Host DRR of Rotasia 2024 Bengaluru, one of South Asia's largest Rotaract conventions. He later served as Secretary – Reporting & Initiatives of Rotaract South Asia MDIO, contributing to stronger governance, regional collaboration, and organizational excellence.

Today, as the 17th President of Rotaract South Asia MDIO for RY 2026–27, Arun leads one of the world's largest regional Rotaract organizations, working to strengthen collaboration across South Asia, empower leaders, and build platforms that create lasting value for the movement.

His contributions have been recognized through several honors, including the Outstanding District Rotaract Representative Award from Rotaract South Asia MDIO and SEARIC MDIO, the Outstanding District Secretary Award for two consecutive years, the Best Executive Council Member Award, the Memorial Leadership Award, and the Young Achievers Award, among several other recognitions over the years.

Professionally, Arun serves as the Business & Ecosystem Leader at Reliance Intelligence, working at the intersection of artificial intelligence, developer ecosystems, strategic partnerships, and community-led growth. His work focuses on building products and ecosystems that enable technology to create meaningful impact at scale.

Across every role he has undertaken, one belief has remained constant: leadership is measured not by the position one holds, but by the people one enables and the impact one leaves behind, for we are **Limitless Together**. That belief continues to shape his journey in Rotary, in technology, and in service.
